

Thank you  
for your order!

I hope that you will enjoy using our shadow puppets.

Please, remember that they are meant for *non-commercial (personal or educational) use only*. Do not sell, modify or distribute through other websites. If you find them useful and want to share them with someone, send them a link to [Adventure in a Box](https://www.adventure-in-a-box.com)! I'll appreciate that very much.

If you experience a problem with this file, please let me know, and I will do my best to fix it. I also enjoy seeing my materials in use, so if you share it on social media, do tag me! My social media accounts are below.

# How to Make Shadow Puppets

## Materials

- black card stock: 80-90 lb is my favourite paper weight for puppets; 65 lb is a little thin, but may be better for cutting with scissors and a hobby knife
- bamboo skewers for sticks
- puppet designs: you will find [my puppet designs](#) to be in JPEG format – that way, you can use them for printing on paper and cutting by hand or for importing into the software of a silhouette cutting machine

You can try making puppets in the following ways:

1. By cutting them with scissors and a hobby knife
2. By using a silhouette cutting machine ([Silhouette Cameo tutorial](#) or [Cricut tutorial](#))
3. By printing the designs on printable transparent film
